

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PARKSVILLE WATER DISTRICT'S REQUEST FOR)	
APPROVAL TO PROVIDE LESS STORAGE THAN THE)	
MINIMUM REQUIRED FOR ONE DAY'S SUPPLY; A)	CASE NO. 10030
DEVIATION FROM SUBSECTION (4) OF 807 KAR)	
5:066(5))	

O R D E R

On October 4, 1989, Parksville Water District ("Parksville") requested additional time in which to submit engineering studies ordered by the Commission in this matter.

Having reviewed Parksville's request for additional time and being otherwise sufficiently advised, the Commission finds that it should be denied. Over 20 months have passed since the Commission originally ordered Parksville to conduct certain engineering studies on its distribution system and report their results. The Commission's Order of February 17, 1988 allowed until September 1, 1988 for the submission of these reports. On two occasions since then, Parksville has requested, and the Commission has granted, additional time. Despite Parksville's assurances on each occasion that the studies would be timely submitted, they were not. In its current request, Parksville fails to mention a date by which it expects the studies to be completed. Without any assurance as to when the studies will be completed or any evidence that they have been commenced, the Commission believes that no further extensions of time should be permitted.

IT IS THEREFORE ORDERED that Parksville's request for additional time is denied.

Done at Frankfort, Kentucky this 30th day of November, 1989.

PUBLIC SERVICE COMMISSION

For the Commission

ATTEST:

Executive Director
